

Virtual whiteboard and Lensoo create

Francesco Tarantino – IFOM Director

Teachertrainings.eu

Training courses for education staff

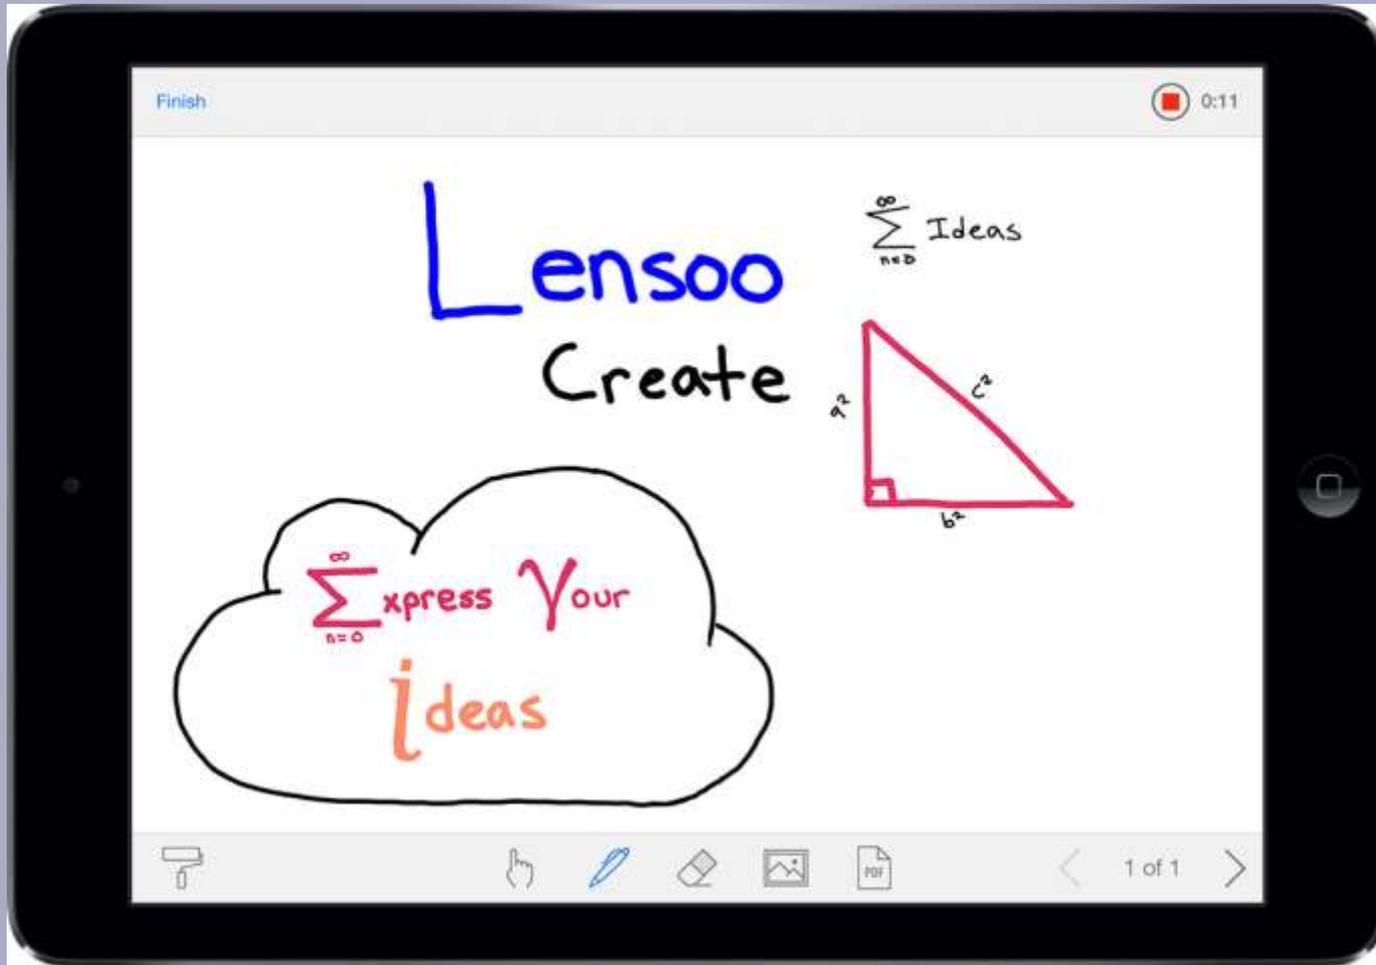

Lensoo create

- Lensoo create is an app for android and mac mobile devices
- Lensoo Create turns your iPad, Android tablet or smartphone into a virtual whiteboard with voice recording, digital writing and drawing
- Lensoo Create allow you to share your videos and lessons (e.g. email, Facebook, Twitter, LinkedIn, whatsapp, ...)

Lensoo create

- Free version with videos up to 15 minutes and some limitations (highlighter, laser pointer, edit tool, real time video capture)
- Lensoo create gives you the possibility to access video done by other teachers and use them in your classroom or as inspiration

Let's try it: create.lensoo.com

Activity

- Create a video with lensoo create of about 2m30s on a subject of your choice (presenting yourself, about something you teach)
- Use 2 pages
- Use at least a photo
- Share the video with f.tarantino@ifom.info

Lensoo: how to use it in class

Lensoo: how to use it in class

- To make lessons more multimedial
- To allow distance learning
- Embedded in other tools (e-learning website, kahoot, ...)
- To give homework to students
- To give them a project work and ask them to create a video with Lensoo Create by themselves
- To train teachers
